# Netherlands

May 14th, 2020

## Lessons learned

- Wonderful to see developments
- Attractiveness
- Combination with a lot of elements (all the variations how you can use in comparison with other methods, like
- Be aware: should not become a checklist or a step-by-step plan (sequencing)

## Way forward

- Discuss developments Marinka Kuijpers and Will Bom
- Clustering all elements (with user-interview) → overview of possibilities
- Compendium of Estland for individuals and groups
- Extend toolkit with all methods /instruments (but how can you make it feasible)

## Next steps

- Make an appointment with the country team (together with Marinka Kuijpers)
- EG: clustering / extending toolkit (make it as practical/simple as possible)
- Professionals: translate to Dutch context/situation and share
